Technical specifications

Verified collection & review

Collected file types	Videos, photos and camera logs
User assignment	Bind a camera to a specified user account
Evidence search	Date and keyword queries
Encrypted playback	Decryption for compatible camera recordings; format/build matching required
Location playback	Playback with supported recording location data

Software environment & requirements

Database	MySQL; required version and setup to confirm
Host platform	Windows; currently supported release to confirm
Camera integration	Approved camera model, firmware and file formats required
Installation scope	Host sizing, storage, license and concurrent camera capacity unconfirmed

Configuration notes

Confirm the Collection build, Windows release and MySQL version before installation.

Decryption and location playback depend on the camera recording format and software build.

The reference screenshot is not an approved SPIKECAM-branded build. Confirm image, hardware and license bundle.
