

DEMS Web

Browser Evidence Management for DS02A

Manage, search, play and export camera recordings through a browser, with automatic collection through the DS02A dock.

Interface preview; build and configuration may vary

Review evidence in a browser

Access the evidence interface through a supported browser without an additional review client.

Collect through DS02A

Use the DS02A workflow to collect and upload recordings from matched cameras automatically.

Find, play and export video

Search collected recordings, play them back and export selected video through the web interface.

Technical specifications

Verified evidence functions

User interface	Web browser; no additional evidence-review client required
Dock integration	DS02A automatic camera-data collection and upload
Evidence management	Centralized management of collected camera videos
Search	Search collected recordings through the web interface
Playback	Browser-based video review
Export	Export recorded video

Deployment requirements to confirm

Camera & dock pairing	Approved camera firmware and DS02A software build
Browser environment	Supported browsers, versions and client OS unconfirmed
Hosting & storage	Server location, platform, storage and access setup to confirm
Capacity & entitlement	Camera/user limits, retention and licensing unconfirmed

Configuration notes

DEMS Web is documented for DS02A; confirm any additional dock integration separately.

Confirm hosting, browser versions, storage, access setup and license scope.

The illustrated v3.6 interface is a reference image, not a current-release commitment.
