

Holster Trigger

Draw-event recording trigger accessory

An adhesive-mounted holster sensor starts recording on configured compatible body cameras when a firearm is drawn.

Product view

Draw-event recording

A firearm draw can start recording on cameras matched to the trigger configuration.

Adhesive mounting

The sensor attaches to a suitable holster using an adhesive sticker.

Compact sensor

The rubber sensor measures 47 x 25 x 11.5 mm and weighs 20 g.

Draw event	20 g	Adhesive
Recording trigger	Sensor weight	Holster attachment
